

APPLICATION TO INCREASE GENERATION AT EXISTING INTERCONNECTION

This is an application to increase the generating capacity at an existing interconnection of a qualifying net-metered facility or small power producer, as described in the Oklahoma Administrative Code (“OAC”) 165:40 with distribution facilities owned by Northeast Oklahoma Electric Cooperative, Inc. (“Cooperative”). Within this application, the applicant shall be referred to as “Producer.”

Producer shall complete this application in its entirety and deliver it to Cooperative no less than thirty (30) days prior to interconnection to allow Cooperative time to determine if modifications to Cooperative's system are needed to accept delivery of electric energy.

If this application is accepted and approved by Cooperative, it will become part of the existing Agreement between the Parties. All terms of the original agreement will apply.

Section 1. Producer’s Information

Name: _____

Mailing Address: _____

City: _____ State: _____ Zip Code: _____

Facility Location: _____

City: _____ State: _____ Zip Code: _____

Daytime Phone: _____ Evening Phone: _____

Producer’s Account Number (from electric bill): _____ Service Map Location: _____

Section 2. New Generation Information

System Type (circle one): Solar Wind Hydro Geothermal Biomass Fuel Cell Micro turbine

AC New Generator Rating (kW): _____

Describe Location of Accessible and Lockable Disconnect: _____

Total Generating Capacity: _____

→ Attach detailed specifications for all of the net metering facility equipment. ←

Section 3. Installation Information

Installed by: _____

Qualifications/Credentials: _____

Mailing Address: _____

City: _____ State: _____ Zip Code: _____

Daytime Phone: _____ Installation Date: _____

→ Attach a detailed electrical diagram of the net metering facility. ←

Send completed application to:
